### Enhanced Vision

Thanks = First to enhanced  
Vision for making this machine  
available to people with  
low vision problems. Then to my  
son Tom Gerock Jr. for locating  
this wonderful machine on the  
Internet and totally surprised  
me. It has provided me with  
the ability to read, write, and  
participate in my daily activities.  
One of my best quality times with  
my enhanced vision machine  
is early a.m. with "The Wilmington  
Star news" and on the right my cup  
of coffee and on the left 2 cookies -  
What a wonderful way  
to start the day.

Grateful always ..  
Agnes Connee Gerock (Milton)
