

Merlin LCD

The **Merlin LCD** has helped thousands of people regain the ability to read newspapers, books and magazines. The **Merlin LCD** is the clear choice in desktop magnifiers for reading and writing.

The stylish new design takes up less space in any environment. To give you the most comfortable viewing position, the fully adjustable LCD monitor can be raised, lowered or angled in any direction.

Not just an adjustable reading machine. The **Merlin LCD** will cater for all your magnification needs, such as viewing photos, crosswords, puzzles, reading confidential documents and food packaging.

Merlin LCD features

- Fully assembled unit - ready to use in seconds.
- Integrated monitor with a choice of sizes.
- Wide range of adjustable magnification from 2.4x to 77x (magnification will vary with LCD size).
- Fully adjustable LCD monitor can be raised, lowered or angled in any direction.
- Personalise your image with 7 different viewing modes - includes full colour and black and white picture.
- Through VGA - Toggle between your computer and the Merlin LCD.
- Upgrade your Merlin LCD with the new connectivity box for lines, windows and computer split screen.
- A workstation is available to purchase separately - 3 different height levels, lockable wheels.
