Hand held magnifiers

Your visual independence on the move. Examples of common use are reading menus, bus time tables, ingredients and prescriptions. Magnification levels vary but are limited due to screen size. All Enhanced Vision hand held magnifiers have a facility to change brightness and offer full colour and a choice of false colours.

Pebble-Mini

Pebble-Mini's ultra compact design makes it the ideal hand-held magnifier whether you're at home or on the go. Easily read packaging, mail, labels, price tags and so much more.

Wear Pebble-Mini around your neck or carry it in your pocket or bag, the only time you'll know it's there is when you need it!

Features:

- Adjustable magnification from 2x to 10x
- 3" widescreen high resolution LCD display
- Lightweight design - 115 grams
- Adjustable brightness
- Large and easy-to-use controls
- 28 available viewing modes
- Freeze frame image feature
- Upload stored images to PC
- 2-3 hours of battery usage
- Charge directly off mains or via USB
- Image capture with save and recall
- Carry case and stand included

Pebble HD

Pebble HD's small lightweight design makes it your perfect companion. Carry the Pebble in your pocket, handbag or clip it to your belt. Handy and easy to use just when you need it. Pebble HD boasts a new HD camera providing a crisp, clear, colourful, high definition picture.

The Only Hand Held Magnifier You'll Ever Need!!

Features:

- NEW HD camera with 4.3" screen
- Adjustable magnification of 1.25x to 13.5x
- Easy to use large tactile buttons
- Adjustable brightness - lights on/off feature
- 28 available viewing modes
- Multi purpose handle allows usage in various positions
- Rechargeable battery with up to 3 hours of continuous use
- Carry case included
- Energy saving auto turn off
- Freeze frame with image save capability and PC download

The new generation

The Transformer's unique compact design is perfect for use at school, work or home. The Transformer is the most flexible and portable solution for reading, writing and viewing magnified images at any distance.

Transformer USB

The Transformer has easy to use hot keys and will allow you to split screen and capture images for later viewing. The discreet stylish magnifier is designed for people on the go.

Features:

- Lightweight - Weighs less than 1kg
- Magnifies up to 30x
- Auto-installation software
- Left/Right hand modes
- Camera rotates 330°
- Capture and store images
- 28 custom colour select options
- Reading, distance & self viewing modes
- Battery operated - self powered up to 4 hours
- Includes soft carry case and cloth sleeve
- Compatible with the latest operating systems

Transformer USB/VGA

Transformer USB/VGA is identical to the Transformer USB but has an additional VGA output enabling the Transformer to be used on any monitor with a VGA input.

merlin®

Merlin has helped thousands of people regain the ability to read newspapers, books and magazines. The Merlin is the clear choice in desktop magnifiers for reading and writing. The stylish design means Merlin fits well in to all environments. Merlin has a unique adjustable monitor that gives you the most comfortable viewing position. Merlin is extremely simple to use and is available in 3 different models.

Features (on all Merlin types):

- Fully assembled unit - ready to use in seconds
- Choice of integrated 19", 22" or 24" monitor
- Wide range of adjustable magnification
- LED lighting for true picture and colour image
- Simple, easy to use tactile controls with just 3 button operation
- Fully adjustable monitor can be raised, lowered or angled in any direction
- 28 adjustable viewing modes allow you to personalise the Merlin
- Simple to use lockable X/Y table enables easy navigation
- Upgrade your Merlin with a Feature Pack for lines and windows (not included)
- Purpose built static and wheeled tables available for Merlin (not included)
- 3 year warranty

Tip

Merlin HD offers superior image quality noticeable at lower levels of magnification

Merlin Feature Pack

Merlin Feature Pack is available on the Merlin LCD and Merlin HD. The feature pack offers lines and windows.

Merlin HD also has a focus lock on the Feature Pack.

Merlin Limited

Merlin Limited is Enhanced Vision's entry level electronic magnifier. Merlin Limited is available in 3 different sizes, 20", 22" and 24" monitor. Merlin Limited has no computer input and does not have the option to insert a feature pack.

Merlin LCD

Merlin LCD is identical to the Merlin Limited in dimensions and specification, the only difference being Merlin LCD enables a computer input and feature pack connection. Merlin LCD is also available in 3 sizes, 20", 22" and 24" monitor.

Merlin High Definition (HD)

Merlin HD has a superior image quality compared to the LCD and Limited models. This is due to using a high definition camera and monitor. HD offers a much more vibrant image and better colour representation. Merlin HD is also available in 20", 22" and 24" monitor.

For help in choosing the correct Merlin call 0800 1456115 or visit www.enhancedvision.co.uk

See and hear the difference

Advances in technology have enabled Enhanced Vision to design and build electronic magnifiers that incorporates high definition cameras with built in text to speech (OCR). Text to speech enables the user to audibly listen to text instead of using the cameras magnification capabilities, this process is possible by the camera taking a photo and converting it within seconds to speech, at the press of a button.

Merlin Elite

Merlin Elite is a high performance desktop video magnifier, (CCTV) featuring high definition and text to speech (OCR). High definition colour and contrast provides you with a beautiful, crystal clear picture and vibrant colours. Merlin Elite's unique design allows for a wide field of view, displaying more text on the screen.

Features:

- Multi language reading capability
- Sony® HD auto focus camera
- Choice of male or female voice
- Save and retrieve stored images
- Simple to use tactile controls and keypad
- Wide range of adjustable magnification from 2.4x to 70x
- 28 viewing modes to optimise contrast and brightness
- Text to speech - reads aloud with Nuance® software
- Low profile X/Y table with a user friendly lock mechanism
- Merlin Elite's monitor can be utilised as a display for your computer
- 3 year warranty

DaVinci

DaVinci is a high performance desktop video magnifier, (CCTV) featuring HD, text to speech (OCR) and a 3-in-1 camera. DaVinci has a moveable/rotating camera that enables self viewing, desktop viewing and distance viewing. Because of the camera movement, daily hobbies become much easier by positioning the camera into a more natural position. DaVinci has a very small footprint making it ideal for those with limited space.

Features:

- Multi language reading capability
- Sony[®] HD auto focus camera
- Choice of male and female voice
- Save and retrieve stored images
- Multi purpose 3-in-1 camera
- Simple to use tactile controls and keypad
- Wide range of adjustable magnification from 2.2x to 77x
- 28 viewing modes to optimise contrast and brightness
- Text to speech - reads aloud with Nuance[®] software
- DaVinci's monitor can be utilised as a display for your computer
- 2 year warranty

Versatile Magnifiers

Enhanced Vision are dedicated to providing visual independence for all low vision requirements. The following products can be used in conjunction with your own television, computer or laptop. Each product offers different advantages for your personal requirements. Contact Enhanced Vision for assistance in choosing the correct magnifier.

Acrobat Range

The Acrobat is Enhanced Vision's most versatile system. The Acrobat offers an auto focus 3-in-1 camera for self viewing, reading and distance viewing. Ideal for any task, with seven viewing modes and magnification levels up to 72x. Acrobat features can be operated by remote control.

Acrobat HD Standard (Long Arm/Short Arm)

Designed to work with a computer monitor with a DVI connection. Offers superb image quality and takes little desk space.

Acrobat USB

Designed to work with your computer or laptop using its own battery. Enhanced Vision's easy to use software enables you to save, capture and retrieve images as well as giving split screen.

Acrobat PC

The Acrobat PC is designed to run directly through your desktop computer system. It does not require software and offers split screen functionality.

Acrobat HD LCD

Use as stand alone unit or connect to your computer or laptop. For all Acrobat features see Acrobat HD LCD on the following page.

Acrobat HD LCD

The Acrobat High Definition LCD is the perfect companion for use anywhere with limited space. The Acrobat HD LCD is the all-in-one magnifier that can be used for anything. Complete with its own screen the Acrobat HD LCD is a plug and play unit.

The Acrobat HD LCD offers an auto-focus 3-in-1 camera for self viewing, reading and distance viewing. Your perfect partner for crafts and hobbies.

Features:

- Choice of 20", 22", 24" or 27" monitor
- Up to 82x magnification
- 28 viewing modes including full colour
- Auto focus
- Horizontal line markers
- Remote control operation
- Focus lock
- Includes portable X/Y table
- Computer input, toggle between an existing computer and the Acrobat LCD

Acrobat HD Deskmate

The Acrobat Deskmate has the same features as the Acrobat HD LCD but doesn't include a screen. The Acrobat Deskmate comes on an external arm and can be connected to a compatible monitor.

Acrolite

Acrolite is identical to the Acrobat LCD, however the Acrolite does not do self or distance viewing and isn't High Definition. Acrolite is only available with a 17" screen.
